

AUSTRALIANS AT MIPTV AND MILIA 2004

The *Australians at MiPTV and MILIA 04* guide is designed to give an overview of Australian companies represented at MiPTV and MILIA in 2004. This guide includes information about projects available at the market, company contact details and expressions of interest in co-production.

Australia has a strong television production industry, especially in the areas of TV drama, children's programs and documentaries. In the year 2002/03 Australia produced 38 TV drama programs with production costs valuing A\$222m and around 256 hours of documentary production valuing A\$53m.

The Australian Film Commission (AFC) is proud to be associated with the development and production of Australian film, television and interactive digital media projects and to assist their promotion internationally. This guide is one of a range of AFC publications designed to inform buyers, festival directors and international producers about the Australian industry, its programs and their creators.

The AFC has undertaken all reasonable measures to ensure the accuracy of the information included and specifically disclaims any liability, loss or risk, personal or otherwise, which is incurred as a consequence, directly or indirectly, of the use and application of any of the contents. Due to space restrictions it has been necessary in some instances to reduce the listings.

Film Australia is one of the nation's largest producers of television documentaries and educational programs. Though an integral part of the Australian Government's film program, Film Australia is neither a funding agency nor broadcaster. Rather it is an Australian Government owned production and distribution company – an integrated business which performs a community service. Its mission is the creation of an audio-visual record of Australian life, through the commissioning, distribution and management of programs which deal with matters of national interest to Australia or illustrate and interpret aspects of Australian life.

The Julia Harris film company works exclusively for the Permaculture Research Institute, an organisation which teaches people to use ecology as the basis for designing integrated systems of food production, housing, technology and community development while endeavouring to create a self-sustaining environment. An excellent documentary has been completed showing dynamic world leadership in environmental science while demonstrating peace through religious and cultural tolerance. The film is based in Australia and Jordan and offers superb visuals which accompany a bold strength in message, dealing with initiatives not previously documented. The film company has two other projects in development which vary greatly in genre but pursue similar world issues.

The Pacific Film and Television Commission (PFTC) is the Queensland Government's primary agency for the film and television industry in the state. The PFTC's key role is to develop and support the local film industry, attract production to Queensland, and celebrate an active screen culture across the state. Globally, Queensland is known for its stunning locations, talented crew and attractive financial incentives, while locally the state is a growing force in Australia's film industry landscape and a key contributor to the creative health of our nation.

Based on Queensland's Sunshine Coast, Visionquest Entertainment is an independent production company. The company's focus is on the production of documentaries, children's programs, television drama and educational products. The company was started four years ago when owner/manager Norm Wilkinson, with over 25 years experience as a creator/producer behind him, relocated to Queensland. Visionquest also produces Australian wildlife films through its subsidiary company John Young Wildlife Enterprises and is soon to commence production of a number of science-based documentaries through a new subsidiary, Crossbow Enterprises.
